

The City of Ottawa grants different parking permits for specific types of parking:

For Residents:

This permit offers special street-parking privileges to Ottawa residents. To be eligible for this, residents must live in a zone that allows permit parking, and must also have no off-street parking themselves. A residential parking permit provides up to 48 hours of parking in the same spot, and excludes residents from the overnight parking ban that exists in some areas from November to April. The cost is \$52 a month as well as HST. An annual permit is available for \$582 excluding HST, which offers a savings of \$42. It costs \$10 to replace a permit, and permits for less than one month cannot be obtained.

- you will need a copy of their lease or rental agreement for the address listed on the application;
- a letter from the landlord or rental office confirming that the tenant does not have off-street parking; and
- vehicle registration bearing the name and address of the tenant applicant; the vehicle license and registration for which on-street parking is requested must match the name and address cited on the permit application, except if the vehicle is owned by a person other than the tenant applicant. In this case, the tenant applicant must also submit a letter or leasing document from the vehicle owner specifying that the owner authorizes use of the vehicle by the tenant applicant.
